Your Contributions At Work For A Stronger Community In Nahant

Our long efforts are about to pay off! More than \$700,000 has been raised and invested in restoration of the Valley Road School Building--- and that investment will complete the interior and structural work we need to make the building ready to go back to work as a resource for Nahant. We have a lot to be proud of already!

Thanks to the support of over 400 Nahant families plus major gifts and governmental grants, the building is not only in sound structural shape, it is stepping into a new century in style. Not only is there a new roof, but a totally new, energy-efficient heating and air conditioning system, an elevator, a handicap-access door, and those classy new, "historically-correct" windows throughout the building. Soon the Nahant Community Center will welcome its "flagship" tenant, the Nahant Historical Society. More than 50% of its capacity will be devoted to Nahant community-based uses, with appropriate commercial rentals to round out the occupancy.

All around us, Nahant is building a great heritage of local tradition as well as "bricks and mortar" for us all to enjoy and leave to our children. Here is a chance to contribute a tangible piece of our heritage, and have your contribution remembered, to show how you cared for our community's future. Our last major challenge is to turn today's "sea of asphalt" around the building into a garden space that will make the Nahant Community Center into a jewel. We have committed to a first-quality exterior landscaping and lighting plan that will make this "a site (and a sight) to behold." Your contribution will help put us "over the top" on our fundraising, and allow us to open the Center as a resource and a delight for us all. Your remembrance on a brick in our front walkway will be there for future generations to see and remember again and again.

Make a contribution that will make a tangible difference, and that will make us all proud for years to come.

You'll be glad you did.
